- **Cloud Services:** AWS, ATLAS

ABOUT ME

I am a self-demanding person, which drives me to constantly improve in both personal and professional realms. Over the past two years, I have dedicated my time to studying and mastering various languages and technologies. Starting from the fundamentals such as HTML and CSS to more advanced technologies like JavaScript, React, and Node.js, I have explored a broad spectrum ranging from web design to backend development.

During this period, I have channeled my passion for programming through the execution of various projects. Each of these challenges has been an opportunity to put my skills into practice, learn from new experiences, and, above all, grow as a programmer.
